## LEGISLATIVE COUNSEL'S DIGEST

AB 205, Machado. Speech-language pathologist.

(1) Existing law provides for the licensure of speech-language pathologists and prohibits the practice of speech-language pathology without a license. Existing law authorizes a speech-language pathology aide who meets the minimum requirements established by the Speech-Language Pathology and Audiology Examining Board to work directly under the supervision of a speech-language pathologist who is responsible for the extent, kind, and quality of services performed by the aide, consistent with the committee's designated standards and requirements.

This bill would authorize a speech-language pathology assistant, as defined, to assist in the provision of speech-language pathology under the direction and supervision of a speech-language pathologist who shall be responsible for the extent, kind, and quality of the services provided by the speech-language pathologist assistant. The bill would establish certain requirements for a speech-language pathologist who supervises a speech-language pathology assistant and who is employed or contracted for by a public school.

The bill would require the board to adopt regulations, would establish certain qualifications of a speech-language pathology assistant, and would provide procedures for a speech-language pathology aide with

certain qualifications to make application for registration as a speech-language pathology assistant.

(2) Existing law authorizes the board to direct applicants to be examined for knowledge in whatever theoretical or applied fields of speech pathology or audiology as it deems appropriate.

This bill would prohibit, after January 1, 2001, the board from renewing any license or registration, unless the applicant certifies to the board that he or she has completed in the preceding 2 years not less than the minimum number of continuing professional development hours to be established by the board for the professional practice authorized by his or her license or registration. The bill would set forth continuing professional development requirements, require the board to prescribe the forms to be utilized for continuing professional development and establish exceptions from the requirements, and authorize the board to audit and require an applicant to maintain records of completion of required continuing professional development.

(3) Existing law requires a person engaging in the practice of speech-language pathology to pay a licensing fee, to be deposited in the Speech-Language Pathology and Audiology Examining Committee Fund, a continuously appropriated fund.

This bill would impose licensing fees upon a speech-language pathology assistant. The bill would also require the committee, by regulation, to fund the administration of the continuing professional development required by this bill as provided in (2) above through provider fees to be deposited in the fund. By increasing the source of moneys in a continuously appropriated fund, this bill would make an appropriation.

(4) Existing law provides that a violation of the provisions regulating a speech-language pathologist is subject to criminal sanction.

This bill would set forth prohibitions regarding the utilization of the title speech-language pathology assistant or a similar title and would prohibit a person who is not registered as a speech-language pathology assistant

from performing the duties and functions of a speech-language pathology assistant, except as provided in the provisions regulating the practice of speech-language pathology. By expanding the class of persons subject to criminal sanction under these provisions, this bill would impose a state-mandated local program by changing the definition of a crime.

(5) Existing law requires that a continuum of program options be available to meet the needs of individuals with exceptional needs. Existing law requires that designated instruction and services be available when necessary for the educational benefit of pupils with exceptional needs to be provided by specified individuals. The designated services include, but are not limited to, language and speech development and remediation.

This bill would provide that these language and speech development and remediation services may be provided by a speech-language pathology assistant.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Appropriation: yes.

*The people of the State of California do enact as follows:*
